For: IMPROVED PESTICIDE MICROEMULSIONS  
AND DISPERSANT/PENETRANT  
FORMULATIONS      Examiner: M. Meller

### RESPONSE TO RESTRICTION REQUIREMENT

MS Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This is in response to a Restriction Requirement mailed 27 June 2006, setting a time for response of 27 July 2006. Three groups were set forth and a species election was required.

Applicant elects to prosecute the invention of Group I, claims 19-29, 31, and 33, drawn to a complex.

The claims of Group II and Group III have not been canceled because they are directed to methods of using the complex of the elected claims and applicant understands that should such claims be allowed, claims to a method of use of these compositions might be rejoined.

Applicant is somewhat confused by the requirement for an election of species since no claim is directed to a particular species or particular complex. However, if the Office wishes a starting point for examination, Applicant elects the complex in the formulation 122699-6 as described on page 21 of the application.
